

## Meeting logbook Entry Sheet

BSc. Project Logbook

<b>Student Name:</b> Pramesh Dulal	<b>LMU ID:</b> 23049307
<b>Meeting No:</b> 03	<b>Start Time:</b> 11 AM
<b>Date:</b> 2025/11/16	<b>End Time:</b> 1 PM

### Items Discussed:

1. Review of the revised SRS document based on supervisor feedback.
2. Verification of GitHub repository creation, structure, and collaborator addition.
3. Planning for the start of system development.

### Achievements:

SRS document was revised based on the supervisor's feedback, making it clearer and better structured. The GitHub repository was also finalized with the proper folder setup, and both supervisors were added as collaborators. These updates have helped prepare the project for the upcoming development phase.

### Problems:

There was some confusion regarding the user approval workflow and role-based permissions, which still need further clarification before development begins. These points may require additional discussion in the next meeting.

### Tasks for the Next Meeting:

1. Begin development of Login and Register modules.
2. Implement role-based authentication and dashboard redirection.
3. Connect the system to the database and set up the admin approval process.

Internal Supervisor Name: Jeevan Poudel

External Supervisor Name: Dipesh Khanal
